

GREEN ANGEL

CLIMATE FUNDS

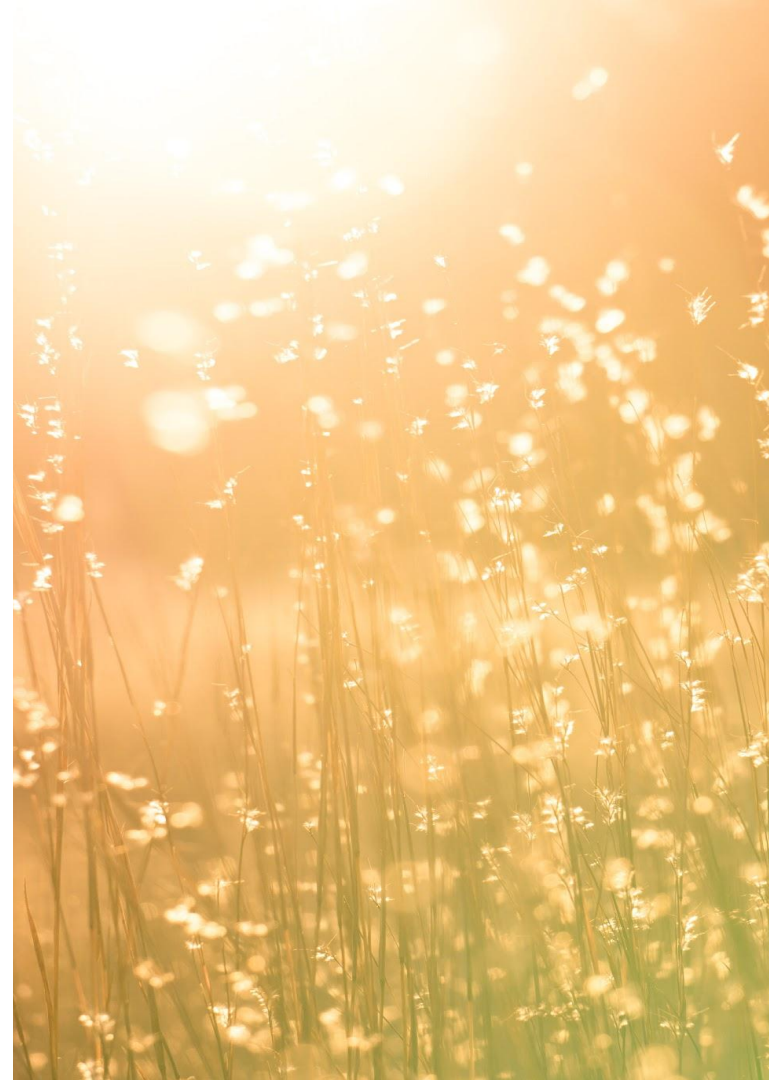

Introducing the EIS Climate Change Fund
Summer 2025 Edition

Hardman & Co Tax Advantaged Forum

Agenda

- Why Climate Tech?
- Why Green Angel Ventures?

Why Climate Tech?

A crucial and urgent need to stop global warming

Climate Tech is about backing the **next industrial revolution**:

- Accelerate the energy transition
- Unleash potential in other key sectors - from industry to agriculture
- Adaptation and climate resilience

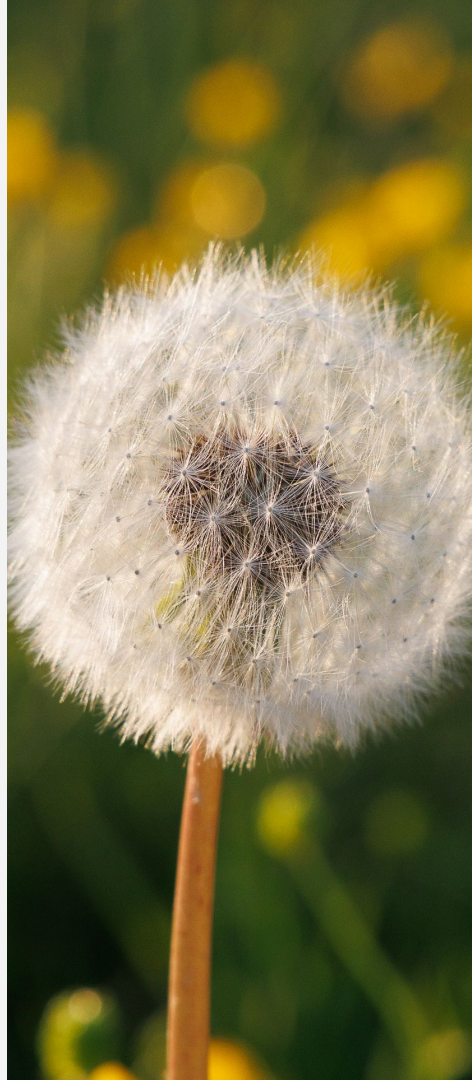

Investing in superior products

We invest in high potential technologies that are:

- Better for the planet
- And superior in performance and cost

Impact and financial returns go hand-in-hand

Climate Tech is a **mega-trend** that is here to stay.

The EIS Climate Change Fund

- Award-winning specialist climate impact fund
- Make a financial return and a positive environmental impact
- Target: x3 on each £1 invested by the fund, over 5-10 years
- 10-15 investments within 12 months
- Active diversification:
 - Across key sectors
 - Early stage startups + Selected rounds of later stage portfolio companies
 - <15% in any one company

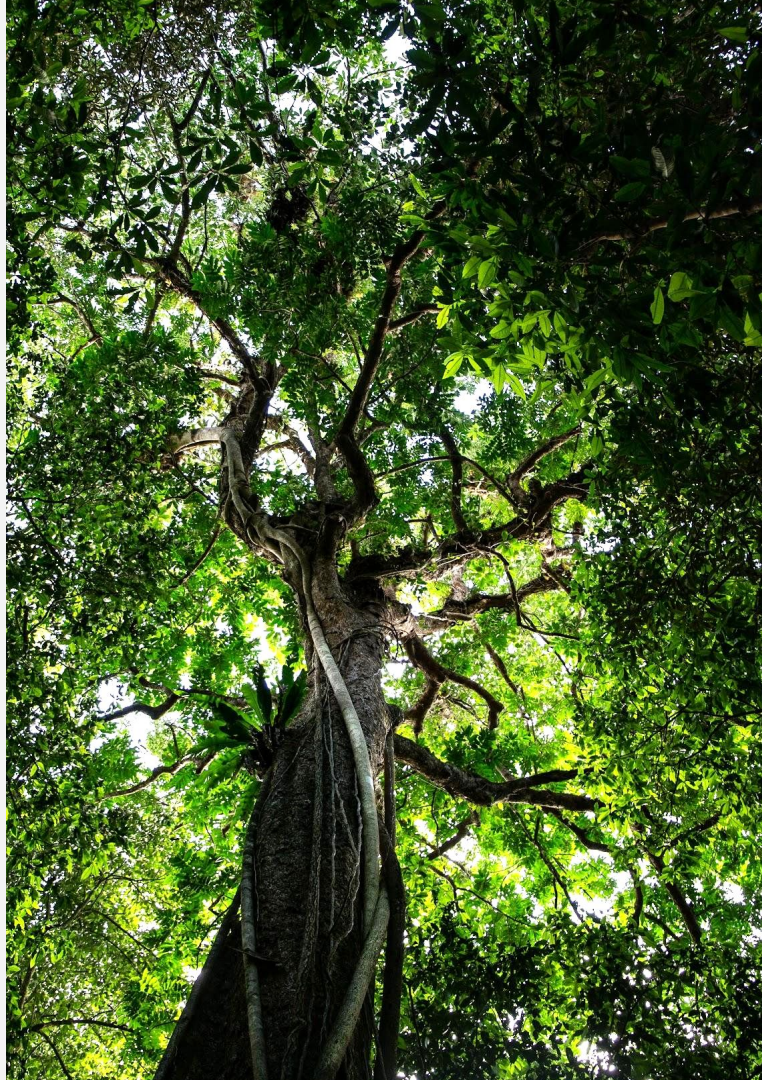

A genuine climate impact fund

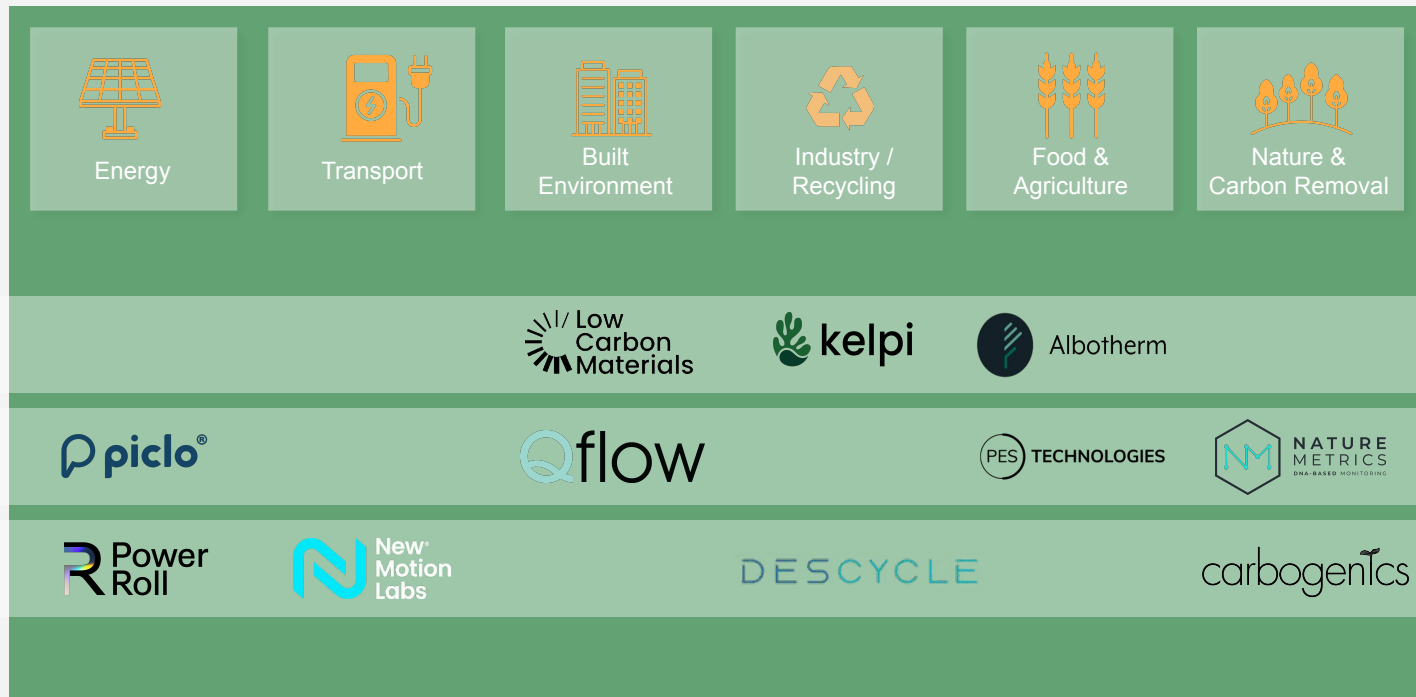

Targeting “a measurable long term reduction in the atmosphere’s GHG concentration”

- Direct solutions
- Facilitating solutions

The first EIS fund with the FCA’s new label:

Focus areas

The first building block in decarbonising
construction sites

Innovative seaweed-based materials displacing
single use plastics

Environmentally friendly solution to
recycle metals in electronic waste

Deal Flow

1,000 applications per year
from Climate Tech Start-ups
